

Simplified AP Payments

Revolutionize your payment operations with our all-encompassing solution. At the forefront of security, CloudPAYit ensures a fraud-proof environment, taking on fraud liability. Experience the convenience of processing all your transactions with just one payment file. Plus, leave the task of vendor enrollment to us; we handle it end-to-end, freeing you from the administrative burden. Our meticulous approach includes the collection, validation, encryption, and secure storage of account information. **Partner with CloudPAYit and elevate your payment processes to the next level.**

How it works

Payment Assurance & Opportunity Analysis

We validate your payments while identifying opportunities with your suppliers.

End-to-End Payment Processing & Security

We handle everything from the enrollment to the meticulous processing of the unique payment file, ensuring all transactions are secure and accurate.

Optimized Payment Methods & Excellence

We offer a comprehensive suite of payment methods - including ACH, virtual card, check, and wire transfer - tailored to optimize benefits for both buyers and suppliers.

Improved Supplier Relationship

CloudPAYit expertly handles exceptions, ensuring seamless communication and robust support for all supplier interactions.

Automate payment processes, including file transfers, transaction confirmation, and payment reconciliation, streamlining banking transactions.

Enhance supplier relationships through a dedicated portal for setup, banking information validation, and cashflow management options.

Transform into a profit center with revenue-generating supplier cash programs, rebate opportunities, self-funding for CloudPAYit operations, and priority access to Professional Services hours.

Integrate. Fully integrated with Hyland OnBase and many ERP systems to complete the final steps of the process.

Key Features
