

Safe. Secure. Reliable. Depend on **REQUORDIT Cloud**

The **REQUORDIT Cloud** is a secure, privately-managed cloud platform custom-designed to host content services. It is the hosting architecture of choice for our enterprise information platforms, OnBase and CloudOCR, our advanced optical character recognition solution. The **REQUORDIT Cloud** also supports CloudPAYit, a comprehensive payment processing solution. Whether multi-instance or multi-tenant, the **REQUORDIT Cloud** offers a custom-tailored approach to hosting content services.

ONBASE

OnBase is designed to coordinate the content, processes, and cases that fuel every organization. This leading platform nimbly manages mission-critical data, proprietary and sensitive documents, and public-facing information through the entire information lifecycle. The full functionality of OnBase is available in the **REQUORDIT Cloud**.

CLOUDOCR

CloudOCR leverages advanced optical character recognition technology to automate the capture, classification, and validation of incoming content, ensuring high accuracy and efficiency. CloudOCR is SOC2 compliant, providing robust security and compliance standards.

CLOUDPAYIT

CloudPAYit is a comprehensive payment processing solution designed to streamline and secure accounts payable operations. It eliminates check printing, centralizes payments on a single platform, and automates pay-file and reconciliation, enhancing efficiency and reducing fraud risk.

REQUORDIT CLOUD CERTIFICATIONS

Your content is your content – no one else's. It resides in data centers that meet or exceed required security standards, so only you can access it.

REQUORDIT CLOUD SERVICES

- SOC 2 audit in progress
- Cloud Security Alliance registered
- NIST
- 800-53
- Restricted physical access

- And more

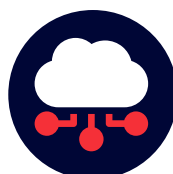

REQUORDIT CLOUD SERVICES

Certified cloud experts in security, infrastructure, network, development, support, compliance, database services, operations and additional areas administer and maintain solutions for Hyland Cloud customers 24/7/365.

INDIVIDUAL ENCRYPTION PROTECTS DATA IN ALL STATES

All documents stored in the REQUORDIT Cloud are encrypted using a unique 256-bit AES encryption key. Data is protected while in use, in transit, and at rest—and is kept separate from other organizations' content at all times.

DATA AVAILABILITY

24/7/365 | 99.99% UPTIME

Reliable, accredited data centers provide the highest levels of availability and uptime. With industry-leading Recovery Point Objective (RPO) and Recovery Time Objective (RTO) commitments.

LIMITLESS INDUSTRY POSSIBILITIES

The REQUORDIT Cloud accommodates organizations with even the toughest regulations and most stringent SLA requirements.
